## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/25/08 has been entered.

### ***Claim Objections***

Claims 41,42,43,45,47,57,58,59,60,61,62,63,64 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 36, 38, 39,53,54,55 and 56. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Response to Arguments***

Applicant's arguments filed 4/25/08 have been fully considered but they are not persuasive.

As noted in the disclosure, i.e., disclosure with respect to the linearly polarized light, because it is in a preselected direction, the omission of such a description in both independent claims 41 and 45 do not obviate the substantially duplicative subject matter objection. The remaining dependent claims are duplicate of the allowed dependent claims.

### ***Allowable Subject Matter***

Claims 36,38,39,53,54,55,56,49,51,65,66,67 and 68 are allowed over the art of record.

None of the cited prior art teaches/or discloses in this environment, the particular limitation(s) drawn to the medium as defined in the independent claim. The examiner cannot without use of hindsight come to such a description.

This application is in condition for allowance except for the following formal matters:

The above noted duplicate claims.

Art Unit: 2627
